

# STUDENTS ON ICE

FOUNDATION • FONDATION

The Students on Ice (SOI) Foundation is an award-winning organization that has led more than 30 expeditions to the Arctic and Antarctic —journeys we often refer to as the Greatest Classrooms on Earth. Founded in 2000, the SOI Foundation is based on the principle that we are driven by the personal connections that we make to the land and to one another and these connections foster a deeper understanding of and commitment to a healthy and sustainable future.

Experiential education in the Polar Regions is SOI's core program and key to bridging cultures and learning first-hand about climate change, ocean conservation, reconciliation and other pressing topics. Beyond expedition, the SOI Foundation connects people, organizations, and funding around ideas, initiatives and programs related to the Polar Regions.

## Position Summary

We are seeking a self-motivated and enthusiastic photography intern to join our media team on the Arctic 2019 Expedition. The ideal candidate should be motivated to gain experience in digital photography, feel comfortable with approaching others to take their photos and must also be capable of working in a fast-paced environment. The successful candidate must also maintain a professional demeanor when engaging with staff and students.

Interns in this position will have the opportunity to expand their skills by exploring various types of photography and further develop and diversify their portfolios of work.

Please be advised that this position is an unpaid internship, but travel and accommodation costs will be covered while on expedition.

Applicants must be aged 18+ to apply

\*Alumni or individuals with direct experience with the Students on Ice Foundation are preferred.

## Role of the Intern Photographer

- Capture portraits of staff and students
- Capture candid images during activities
- Capture wildlife and landscape images
- Report to Lead Photographer
- Assist with other communications tasks as needed
- Organize, edit, caption and tag photos at the end of each day
