

STUDENTS ON ICE

FOUNDATION • FONDATION

The Students on Ice (SOI) Foundation is an award-winning organization that has led more than 30 expeditions to the Arctic and Antarctic —journeys we often refer to as the Greatest Classrooms on Earth. Founded in 2000, the SOI Foundation is based on the principle that we are driven by the personal connections that we make to the land and to one another and these connections foster a deeper understanding of and commitment to a healthy and sustainable future.

Experiential education in the Polar Regions is SOI's core program and key to bridging cultures and learning first-hand about climate change, ocean conservation, reconciliation and other pressing topics. Beyond expedition, the SOI Foundation connects people, organizations, and funding around ideas, initiatives and programs related to the Polar Regions.

Position Summary

We are seeking a self-motivated and enthusiastic videography intern to join the media team on the Arctic 2019 Expedition. The ideal candidate should be motivated to gain experience in digital media production, feel comfortable with approaching staff and students to record interviews, and be able to work in a fast-paced environment. The successful candidate must also maintain a professional demeanor when engaging with staff and students.

Interns in this position will have the opportunity to expand their skills by exploring various types of shooting techniques, using high-end equipment, and further developing and diversifying their portfolios of work.

Please be advised that this position is an unpaid internship. Travel and accommodation costs will be covered while on expedition.

Applicants must be aged 18+ to apply.

All applicants must provide a resume, cover letter, and portfolio of relevant and original work.

*Alumni or individuals with direct experience with the Students on Ice Foundation are preferred.

Role of the Intern Videographer

- Shoot visuals, b-roll and interviews (with interview support from the Communications team)
- Assist with other communications tasks as needed
- Assist with drone operations
- Assist with editing videos, including logging footage, cutting, and graphic work
